

HOW TO SEDUCE YOUR WIFE

DEFINITION **Seduce.** To attract and secure from a woman undying adoration, favor, love, and complete submission without the use of authority or force. Honor her - give her the respect and mercy due her as a woman.

PURPOSE **To please God** - God has commanded us to love our wives, live joyfully with them, and be ravished with their love.

To please yourself - there is no better wife than one motivated to serve and help you by her affection for you.

To please her - proper love of your wife by definition means that you will do all you can to please her.

If you lead in your life, her life, and the life of your family, your wife will love you, follow you, and support you as you so much desire. It requires your consistency and a firm position when she tries to object. By all means make sure your wife does not manipulate you in any way.
