

The Price of Your Soul

(Selling Your Soul Cheap)

(God Paid Dearly For It)

And when he had called the people unto him with his disciples also, he said unto them,
Whosoever will come after me, let him deny himself, and take up his cross, and follow me.

For whosoever will save his life shall lose it;

but whosoever shall lose his life for my sake and the gospel's, the same shall save it.

For what shall it profit a man, if he shall gain the whole world, and lose his own soul?

Or what shall a man give in exchange for his soul?

Mark 8:34-37

Basic Economic Laws:

1. The value of anything is uniquely personal and cannot be set by others.
2. Each person values the world's goods (things) and services (actions) differently.
3. The value of anything to a person is determined by what that person will exchange for it.
4. Life is economically like a huge auction of goods (things) and services (actions) to bid or not bid.
5. Because each person's wealth is limited, a person's choice of one thing must preclude other things.
6. Money = medium of exchange = is a separate thing used for pricing to compare goods and services.
7. All life's goods (things) and services (actions) are offered for sale at prices each person can evaluate.
8. If the price of one thing is too high in a person's analysis, he or she will choose to buy something else.
9. This human action by 7.6 billion people create greater or lesser demand, raising or reducing prices.
10. The price of any thing is set by its cost, a function of supply and difficulty, and demand by all buyers.
